SCORPION Video Boroscope

The 'SCORPION' Video Boroscope offers security search teams a high quality cavity search capability in a portable format

The unit is ideal for cavity and conduit search as well as engineering inspections, and is available with inspection tubes from 1m to 5m in length; as well as an optional 2 way articulated tube.

FEATURES:

- 80° Wide Angle Camera
- High Resolution (640 X 480 pixels)
- 4.8 inch (12.2 cm) Wide Screen
- Quick Snap Photo or Video Recording
- Waterproof and Grease Resistant
- Digital Video Processing
- Image Editing Software
- LED Lighting

The Scorpion Borescope utilizes a video tube with a 4,5mm diameter with a 5mm threaded head unit. This enables inspections of the smallest of cavity openings, roof linings, and cable conduits.

POWER: Rechargeable Lithium Battery
WP RATING: IP67
TEMP: -10° -65° C

Scorpion is supplied in a dedicated hard carry case with containing cleaning kit, and a magnet, mirror and hook set.
